KONNEXLINQ

Description

The **KONNEXLINQ KLQ-16K HDMI Cable** is designed for high-resolution display setups, home entertainment, and professional multimedia applications. Supporting resolutions up to 16K@60Hz, it is intended for use with compatible displays and HDMI-enabled devices requiring high-resolution video connectivity. Featuring gold-plated connectors, a durable metal or gradient blue aluminium shell (depending on the model), and a dark grey PVC jacket, it offers a premium design for modern entertainment and display installations.
